

Hard Drive Benchmarks

Over 1,000,000 Hard Drives Benchmarked

High End Hard Drive Chart

This chart is made using over 2 million [PerformanceTest](#) benchmark results and is updated daily. These overall scores are calculated from three different tests measuring the read speed, write speed and seek time of hard disk drives. The chart contains drives from many of the major manufacturers such as Western Digital (WD), Samsung and Crucial. Based on the results, top-performing SSDs (Solid State Drives) are M.2 NVMe drives utilizing the Gen4 and Gen5 interfaces.
